WHAT MAKES US THE BEST CHOICE FOR YOUR WATERFRONT?

/ FREEDOM FROM FLUCTUATING WATER LEVELS

With a floating dock you never have to worry about fluctuating water levels or rough conditions. Some applications allow for leaving our docks in water that freeze over in the winter. No need for seasonal removal!

/ EASY & MODULAR

Our patented and proven H-Beam connection provides a seamless topside surface and makes it simple to install, expand or remove dock sections -making it easier than ever to change your layout anytime or add accessories as you please.

/ PREMIUM MATERIALS

Crafted from durable rotomolded polyethylene for unmatched durability & long-lasting performance. UV stabilizing components prevent fading, cracking, and chipping. Other than a good power wash here and there, Wave Armor is maintenance-free.

/ EXCEPTIONAL PERFORMANCE

Our rotomolded material is not only extremely durable, but it's thicker and has a fully encased, safe, marine-grade foam fill. This prevents the "spongy" feeling that competitor docks experience under the hot sun. Our foam fill creates the most stable surface on the market, so you won't even feel like you're floating at all. Our patented flagstone pattern is not only aesthetically pleasing, it's functionally designed to move water off the surface.

/ ENDLESS POSSIBILITIES

Extensive options for connecting to any shoreline, seawall or existing structure plus a vast catalog of accessories and boat or PWC port options to create your perfect design - we can customize any solution for your waterfront.

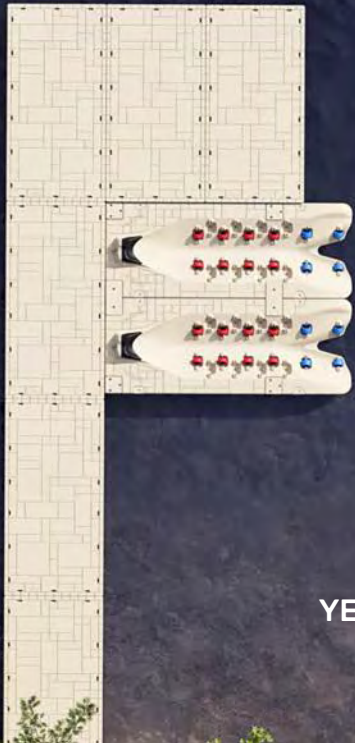

/ AMERICAN MADE

Crafted with care and passion right here in the heart of Minnesota, our team embodies the spirit of the water life in everything we create. We're not just about building exceptional products; we're about delivering an unmatched customer service experience. Our team is here for you every step of the way.

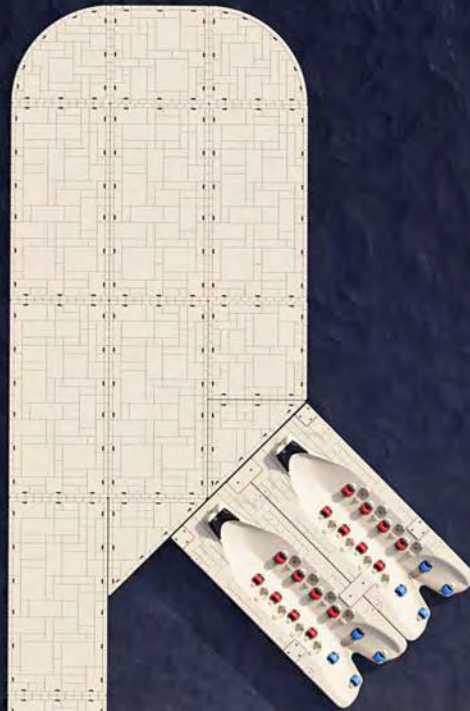

/ DESIGNED TO GROW WITH YOU

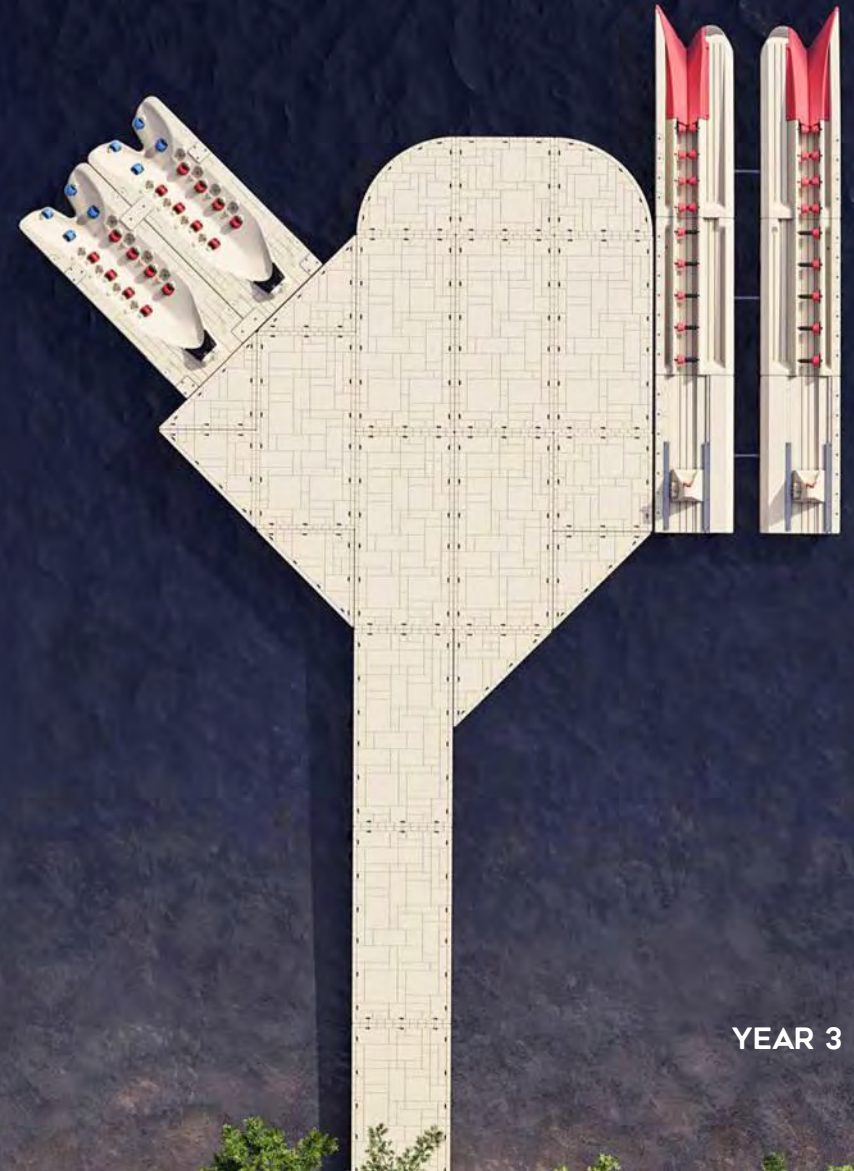

Invest with confidence in a dynamic waterfront. Wave Armor Floating Docks provide durable, long-lasting solutions. The real advantage lies in our modular design, which gives you the flexibility to easily expand or modify your layout whenever you choose. You don't need to buy everything upfront or solve all your needs at once. You can start small and expand as your waterfront goals evolve, giving you the freedom to invest at your own pace while ensuring lasting value.

YEAR 1

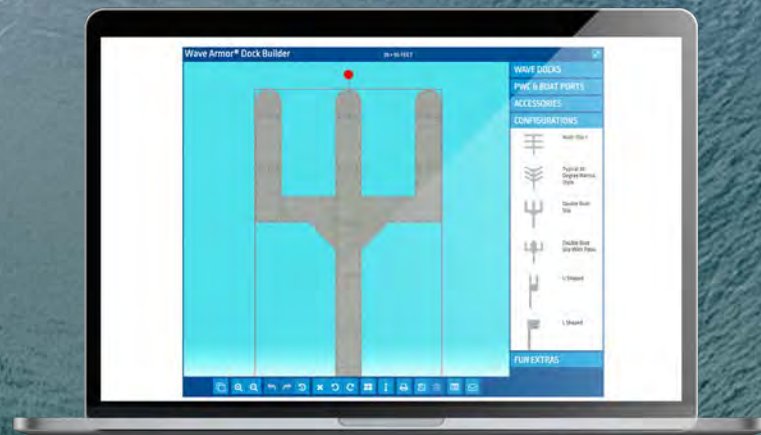

YEAR 2

YEAR 3

YOUR DOCK YOUR WAY

Use our custom Dock Builder to create your dream dock from your computer or tablet. Here you can customize a dock to best fit your unique personal or commercial needs. Our customer service team is available to help you along the way.

/ WAVE DOCK

Wave Armor premium floating docks feature a flagstone paver-style textured finish for a unique look and utilizes our patented H-Beam Connection system for a seamless topside surface. These docks and ports are highly modular, allowing for limitless layout possibilities. Experience waterfront living at its finest with Wave Armor.

- Engineered with interior float, marine-grade foam and unique recessed pockets on underside for unmatched water surface stability
- Modular system to configure any layout, big or small
- Aesthetic flagstone finish designed to move water off the surface
- Crafted from durable Rotomolded polyethylene for unmatched durability & long-lasting performance
- UV stabilizing components prevent fading, cracking, and chipping
- Hassle-free assembly with attachment slots and H-Beam channels
- Versatility to attach various Wave Dock accessories

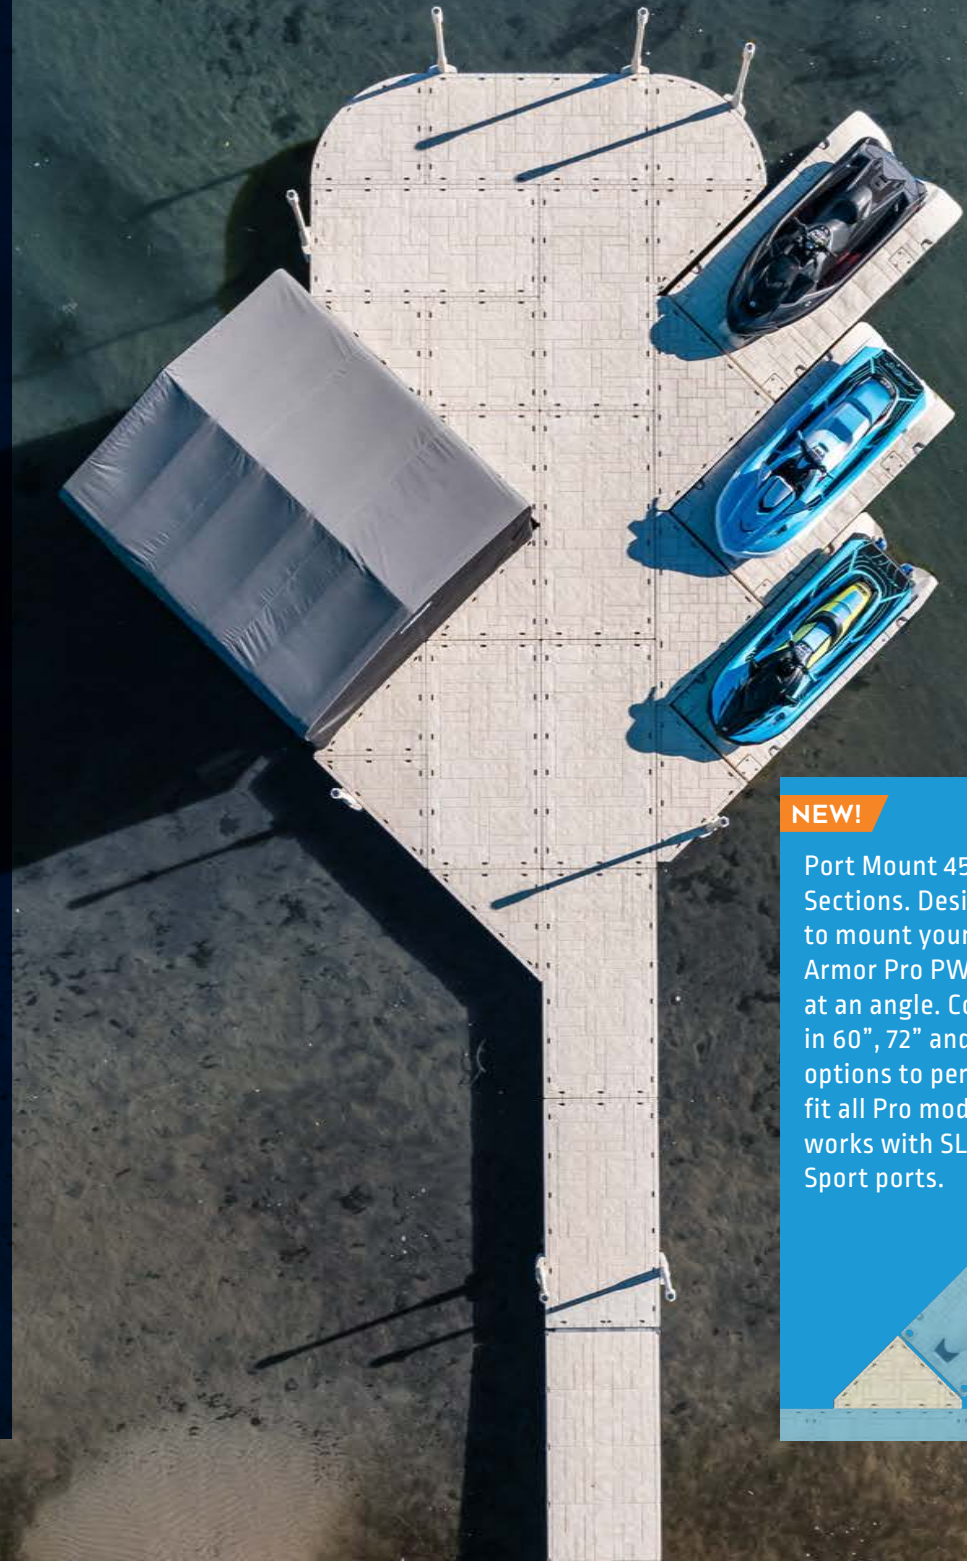

EASILY CONNECT

Wave Armor dock sections with our patented and proven H-Beam Connection system for a seamless topside surface. Easy to install and remove for strong and endless possibilities.

Now with a NEW Hinged H-Beam Option for even easier installation, removal or rough water conditions!

NEW! Wave Armor Gangways & Walkways

Built tough with a reinforced aluminum frame, Wave Armor Walkways & Gangways offer a seamless fit with the Wave Dock system. Elevated above the water to reduce algae and milfoil buildup, they provide a stable, extended pathway for a longer shoreline entrance without sacrificing dock stability. Optional railings and easy T-plate connections ensure secure, flexible installation.

/ ENDLESS POSSIBILITIES

Wave Armor's rotomolded accessories outperform in both functionality and aesthetics, setting new standards for durability and performance. Elevate your waterfront space with our stylish designs that not only offer supreme functionality but also enhance the overall ambiance. Take your dock experience to the next level and invest in a standout waterfront setting that blends long-lasting durability and visual appeal.

Armor

/ PROTECT YOUR INVESTMENT

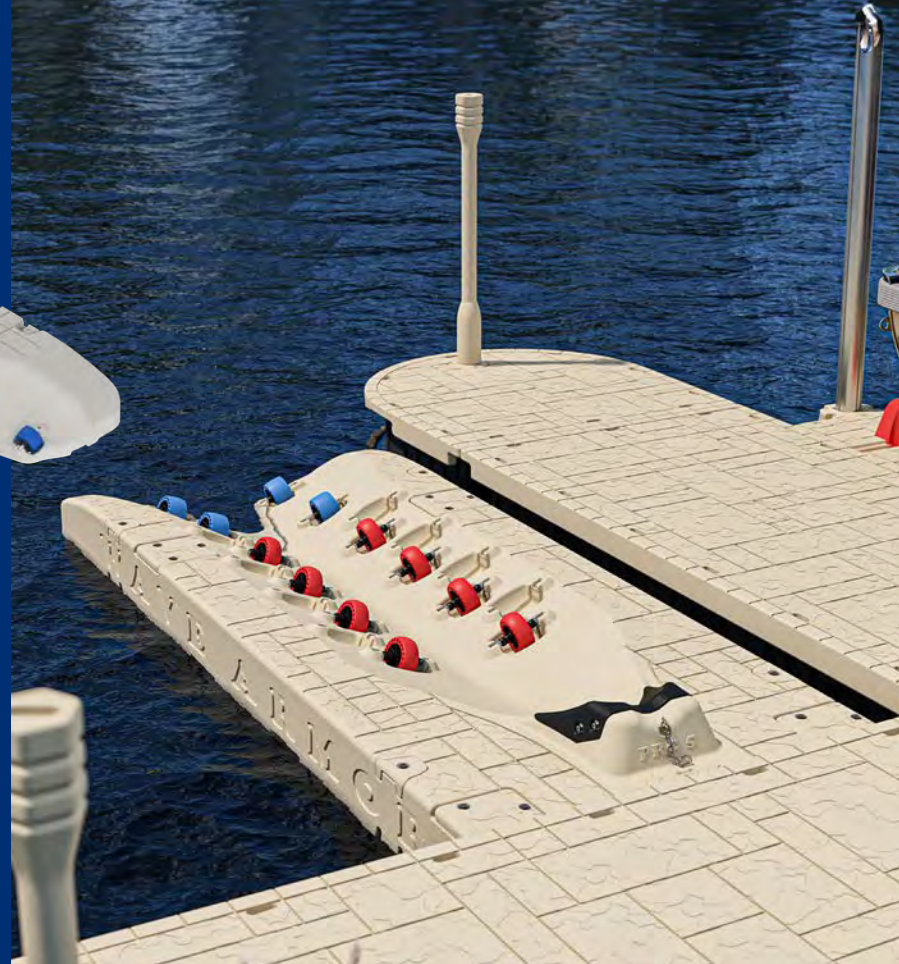

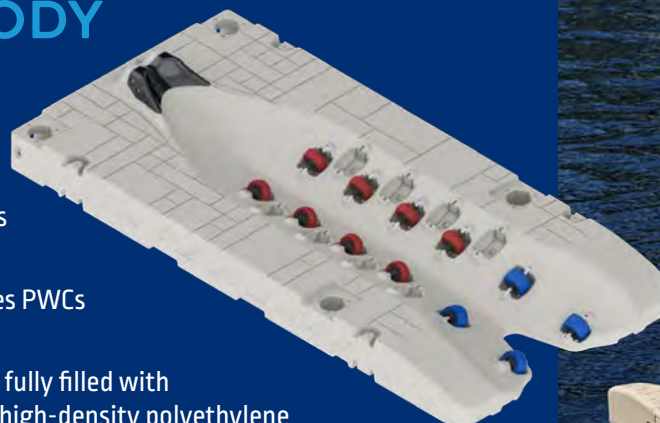

WAVE PORTS stand out as the epitome of excellence in watercraft storage solutions, offering unparalleled advantages for boat, pontoon, and PWC owners. With a reputation for superior quality and design aesthetics, Wave Armor's legendary floating ports provide a secure and convenient option for storing watercraft completely out of the water. The wide variety of size options ensures compatibility with almost any style of watercraft, and the signature Rotomolding manufacturing process guarantees longevity and durability. The ports' adaptability is further highlighted by the numerous connection options, which allow them to integrate seamlessly with any dock. Whether for residential or commercial applications, Wave Armor sets the industry standard, offering an unmatched combination of quality, functionality, and aesthetic appeal that sets them apart from the competition. Choosing Wave Armor means choosing the best in watercraft storage innovation.

/ PRO 5, 6 & WIDE BODY

Wave Armor Pro Ports: The Original Gold Standard in Floating Drive On Ports.

- Patented design. Easy drive-on and drive-off functionality. Gradual entrance allows for a seamless and flat ride, eliminating jarring motions.
- Deeper midsection design effortlessly accommodates PWCs with deeper hulls.
- Crafted with an incredibly durable rotomolded shell, fully filled with marine-grade EPS foam, offering maintenance-free high-density polyethylene construction.
- Strategically positioned, super soft bumper-like wheels to allow a soft, smooth, worry free loading experience. Wheel pockets designed for perfect alignment and optimal hull protection every time.
- Pro line of connectors and attachments for seamless integration with your waterfront setup.
- Molded-in bow stop, paired with a robust stainless steel clip and chain, guarantees secure positioning.
- The PRO Wide Body offers additional walk-around space by expanding the width to 80".

FATHER / DAUGHTER DYNAMIC DUO

At the heart of Wave Armor's enduring legacy, you'll find a dynamic father-daughter team where inventor meets strategy. Rick, the creative force behind our products is a perpetual inventor inspired by a passion for making waterfront living easier. His relentless pursuit of new ideas ensures that our offerings are always at the forefront of innovation. Jennifer, our company President, leads the business with strategic vision, emphasizing family values and encouraging our teams to work together and play hard. The result is more than just a product; it is a testament to the enduring spirit of family, community, and shared pride in manufacturing superior, American-made solutions.

/ YOUR WATERFRONT DREAM TEAM

Wave Armor takes pride in its extensive network of highly trained dealers, spanning across the USA and internationally, ensuring accessibility for everyone eager to bring their waterfront vision to life. Our team of experts stands ready to turn your waterfront dream into reality, utilizing their extensive knowledge and skills. Whether you're seeking a trusted partner or direct assistance, our customer service team, renowned for its top-rated service, is here to guide you every step of the way.
